

Summary

This manual is divided into two parts.

Part I Median Assessed Value to Sale Price Ratio
with one document “Method to Determine”.

Part II Regulated Property
with five chapters.

- Chapter 1 Formulas, Rules and Principles
- Chapter 2 Agricultural Land
- Chapter 3 Heavy Industrial Improvements
- Chapter 4 Resource Production Equipment
- Chapter 5 Pipelines

Each chapter is divided into sections, subjects, and topics.

- SECTIONS** Divisions within a chapter which are identified in the page header.
- SUBJECTS** Divisions within a section which are identified in the page header.
- TOPICS** Divisions within a subject which are identified by key-word captions in the left side of the page.

Document Number

Each subject is assigned a three digit document number located in the upper right corner of the page. The document number is the primary key to locating a subject.

The page numbers in the lower right corner of the page are the primary key to locating a topic within a subject.

Example:

Measurement of Buildings and Structures

CHAPTER SECTION SUBJECT

Document Number	3.1.2
CHAPTER 3:	Heavy Industrial Improvements
SECTION 1:	General Rules
SUBJECT 2:	Replacement Cost New
TOPIC:	Measurement of Buildings and Structures

Locating a Document

To locate a document:

1. Refer to the table of contents or subject index and locate the subject or topic.
2. Note the document number and page number indicated.
3. Using the numbered chapter dividers turn to the chapter indicated. Within the chapter find the section and subject using the document number.
4. To locate a specific topic either scan the key word captions in the left side of the page or turn to the page number indicated in the subject index.
